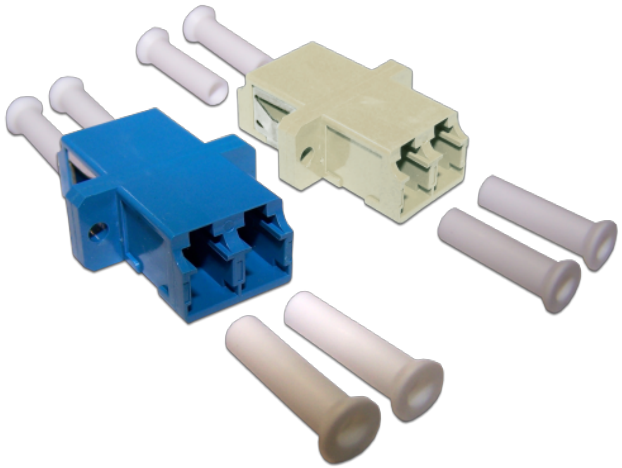
Product Data Sheet

TWT LC optical adapters, duplex, SM, duplex, SC form factor



Part Number: TWT-2LC/S-AM-SM

TWT LC optical adapters, duplex TWT-2LC/S-AM-xx: specifications, description, purpose and use in structured cabling, data center and LANMASTER infrastructure projects.

Description

Adapters are installed in optical patch panel, wall or rack type, and optical sockets.

Adapters are pass-through sockets and are used for precise centering of connector tips, and for fixing connectors pressed against each other.

Adapters are available for multi-mode (beige body) and single-mode (blue body) connectors.

Duplex LC adapter connects two cables terminated with LC connectors. Connector can be installed on a fiber in a cable, a pigtail, or a patch cord.

Part Numbers

TWT-2LC/S-AM-MM	TWT LC optical adapters, duplex, MM, duplex, SC form factor
TWT-2LC/S-AM-SM	TWT LC optical adapters, duplex, SM, duplex, SC form factor
