Product Data Sheet

Velcro cable tie LANMASTER, 20 mm wide, 30 m, black

Part Number: LAN-VCM30M-BK

Velcro cable tie LANMASTER, 20 mm wide, 30 m LAN-VCM30M-xx: specifications, description and use in structured cabling and LANMASTER infrastructure projects.

Description

Used for cable installation, cable bundling and for tying cables to brackets or organizers. The tightening of velcro tie can be adjusted. The velcro ties can be easily loosened or removed if necessary. The velcro cable ties are shipped in a roll 30 meters long, which allows cutting to pieces of the desirable length directly during installation.
