Product Data Sheet

Floor seal for the front side of the basement space of a LANMASTER DCS cabinet mounted on feet, 600 mm

Part Number: LAN-DC-CB-BIP-6

Floor seal for the front side of the basement space of a LANMASTER DCS cabinet mounted on feet

Description

Brush front seals are designed to be installed on the front and rear frames of LANMASTER DC cabinets when the cabinet is mounted on casters or feet.

Brush seals prevent cooling airflow loss between the cabinet bottom and room floor.

Two sizes are available based on the cabinet width: 600 mm and 800 mm. Use the supplied fasteners to fix the seals into the special holes located on the front bottom of the frame.

Part Numbers

LAN-DC-CB-BIP-6	Floor seal for the front side of the basement space of a LANMASTER DCS cabinet mounted on feet, 600 mm
LAN-DC-CB-BIP-8	Floor seal for the front side of the basement space of a LANMASTER DCS cabinet mounted on feet, 800 mm
