Brush entry for holes in mounting rails of 800 mm wide LANMASTER DCS cabinet

Product Code: LAN-DC-CB-FRM8-BRE

Brush entry for holes in mounting rails of 800 mm wide LANMASTER DCS cabinet

Description

Brush entries are used to fit into holes in the vertical mounting rails of 800 mm wide LANMASTER DC cabinets.

When designing and implementing an aisle containment system in a server room with separation of cold and hot air flows, it is necessary to exclude possible places of air leakage and mixing of separated air flows.

The use of brush entries eliminates the loss of cooling air flow in the places where the cables pass through the holes in the mounting rails.

Model range

LAN-DC-CB-FRM8-BRE	Brush entry for holes in mounting rails of 800 mm wide LANMASTER DCS cabinet
