Product Data Sheet

19" split brush-entry panel, 2U, black

LAN-DC-SPBRP-1U

Part Number: LAN-DC-SPBRP-2U

LANMASTER 19" Split Brush-Entry Panel, Black for structured cabling systems.
Protects cabinet interior from dust, dirt, and airflow leaks at cable entry points.

Description

Brush cable entry protects the cabinet interior from dust, dirt, and prevents airflow leakage at cable entry points.

The panel is secured to the frame using screws (included in the package). The design consists of two parts with a separable brush loop, enabling easy cable installation and maintenance without cable removal.

Color: Black.

Construction: Metal frame with PVC bristles.
