Product Data Sheet

19" cable manager with cover, 2U

Part Number: TWT-ORG/CV-2U

19" cable manager with cover TWT-ORG/CV-xU: specifications, description, purpose and use in structured cabling, data center and LANMASTER infrastructure projects.

Description

The metal cable manager with a cover is designed for storing excess length of patch cords, which allows you to organize the placement of cords, avoid the creation of loops, and provide good visibility of the component labels.

There are five holes for bringing the patch cords from the back in the base of the cable manager.

The cable manager's metal cover allows you to hide the patch cords and preserve the aesthetic appearance of the patching field.

Part Numbers

TWT-ORG/CV-1U	19" cable manager with cover, 1U

TWT-ORG/CV-2U	19" cable manager with cover, 2U
