Product Data Sheet

Socket IEC 309 three-phase, 32A, 380V, rewirable, red

Part Number: LAN-IEC-309-32A3P/F

Socket IEC 309 three-phase, 32A, 380V, rewirable, red. Technical characteristics and inquiry information for the LANMASTER catalog.

Description

Three-phase IEC309 socket designed for installation on an electrical cable.

The dismountable housing allows you to conveniently install the socket on a cable. The socket is fixed on the cable using a collet clamp to ensure secure fastening and tightness of the housing.

Maximum rated voltage – 415V.

Maximum load current – 32A.

Color is red.
