Flush mounting box for 45x90 mounting frame, yellow

Product Code: TWT-BX45x90-YL

Flush mounting box for 45x90 mounting frame, yellow

Description

The flush mounting box is designed to install two power sockets, or triple/quad data socket, or combined sockets in a plasterboard wall. The box has 4 holes covered with plugs for cable entry. By breaking out the plugs, you can get the desired shape and size of the hole.

Kit includes 4 screws to install a mounting frame·

A hole must be prepared in the wall to install the box. The box contains 2 marking holes for a Ø65 mm hole saw (center-to-center distance of holes 56.8 mm).

The box depth is 42 mm.

The box is split in half by a removable divider.

The socket can be assembled using a 45x90 metal mounting frame and French 45x90 faceplate. Similar products from other manufacturers can be used.

For options of using this product see document: Typicalassemblies of data sockets with LANMASTER and TWT components.
