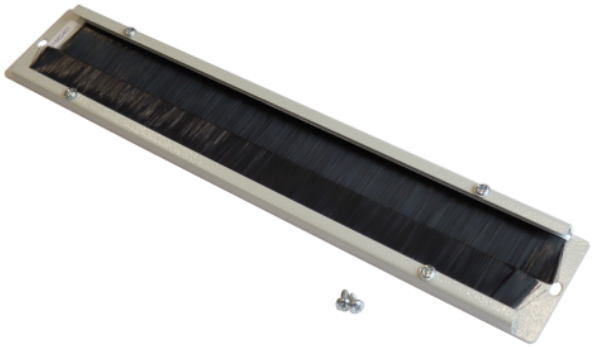
Product Data Sheet

Brush cable entry for wall-mount cabinets, gray



Part Number: TWT-CBW-BP

Brush cable entry for wall-mount cabinets, gray TWT-CBW-BP: specifications, description, purpose and use in structured cabling, data center and LANMASTER infrastructure projects.

Description

The brush cable entry panel is designed for installation in the bottom and the top panels of the TWT wall-mount cabinet of the “Pro” series. The holes for brush entry panel are in the top and bottom panels of the cabinet.

The use of brush entries helps to protect the equipment in the cabinet from the dust and dirt, reduces the risk of cable damage on the edge of the entry hole, provides

partial fastening of the cable routed into the cabinet.

Build as metal frame and PVC bristles.

Color is gray (RAL 7035).

Dimensions:

- External dimensions: 360 x 63 x 10 mm
- Mounting holes distance: 350 mm
- Cable entry hole dimensions: 45 x 320 mm
