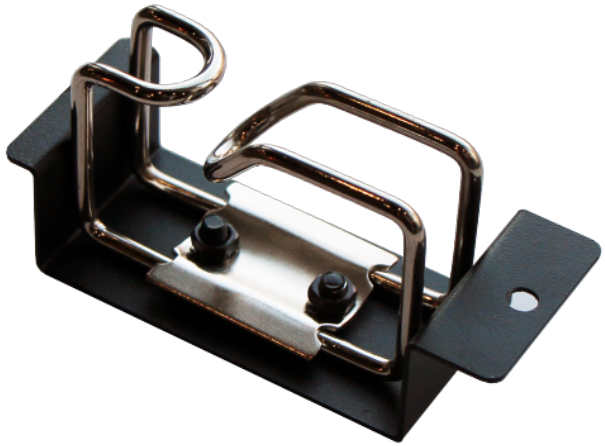
Product Data Sheet

Metal vertical cable hanger ring for Business series cabinets, left



Part Number: TWT-CBB-RGV-L

Metal vertical cable hanger ring for Business series cabinets

Description

The cable hanger ring is intended for organizing vertical cable streams in cabinets of the "Business series" series with a width of 600 mm.

The ring is installed inside the base frame of the cabinet between the door and the 19" rails. It is recommended to fix rings with screws in the corresponding holes in the frame to securely fix the installed rings.

Rings are available in two orientations (left and right) for installation on the corresponding side of the frame.

Made of metal.

Color is black (RAL 9004).
