Faceplate for electrical socket, 45x45 Mosaic typesize, Schuko, 2K+3, with shutters

Product Code: NM-EL45x45/T-xx

Faceplate for electrical socket, 45x45 Mosaic typesize, Schuko, 2K+3, with shutters

Description

Electrical socket mechanisms can be installed in a box, on a wall and in a wall.

The modules have the 45x45 Mosaic typesize, so they can be used both in LANMASTER mounting frames and in frames from other manufacturers.

Designed for connecting electrical units for domestic and industrial use with rated current up to 16 A and voltage up to 250 V to AC power mains with a frequency of 50 Hz.

The socket contacts on the front side are protected from touch by shutters. Also, they have a grounding contact of the EURO standard. Module material is flame retardant.

The module has a composite design and consists of two parts: the base mechanism and the front panel in various colors. It is possible to supply the module both in assembled form and in the form of separate components.
