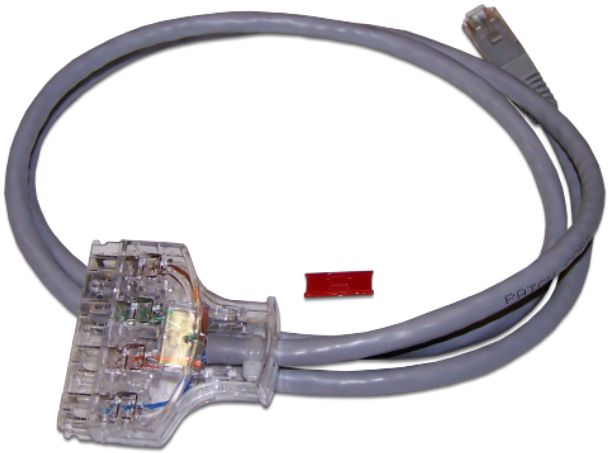
Product Data Sheet

LANMASTER, Category 6, RJ45 patch cord, 2 m



Part Number: LAN-45-P4-2.0/6

LANMASTER, Category 6, RJ45 patch cord for copper structured cabling systems.
LANMASTER product information, specifications and part number details.

Description

Patch cords are designed for manual connection of various SCS cable links to each other.

The cords are made of a four pair cable with stranded conductors at one end of which a four pair 110-type plug is installed and at the other end an RJ-45 plug.

Patch cords provide high connection reliability and allow, if necessary, to quickly re-connect links.

The package includes a two-sided colored icon with a picture of a computer and a phone.

Category 6 compliant.

Patch cords are available in various lengths:

- 1 m
- 1,5 m
- 2 m
- 3 m
