Product Data Sheet

Plug IEC 309 single-phase 32A, 250V, rewirable, blue

Part Number: LAN-IEC-309-32A1P/M

Plug IEC 309 single-phase 32A, 250V, rewirable, blue. Technical characteristics and inquiry information for the LANMASTER catalog.

Description

Single-phase IEC309 plugs are designed to be installed on electrical cables to connect equipment to power mains. The dismountable housing allows multiple mounting and dismounting of the plugs on the cable without performance degradation.
