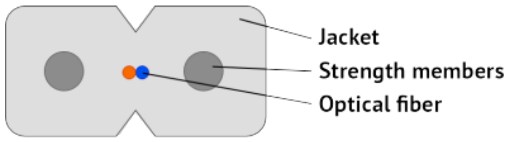
Product Data Sheet

Indoor/outdoor FTTH drop cable, flat, steel wire, LSZH, 4 fibers, OS2 Ultra, white

Part Number: TWT-OFC-FUS4-SU-LS

Indoor/Outdoor fiber optics FTTH cable with нг(A)-LS jacket



Description

Application:

Indoor/outdoor FTTH subscriber cable with small dimensions and high flexibility. It is used as a distribution cable inside buildings, in cable trays, cable ducts, pipes and tunnels, and along external building facades.

Design: flat cable with optical fibers and steel strength members under a common low-smoke halogen-free jacket.

The maximum fiber count is 8 fibers.

Weight, dimensions and operating parameters: check the current product datasheet for cable diameter, weight, tensile load, crush resistance, bend radius and temperature range.

Part Numbers

TWT-OFC-FUS4-SU-LS	Indoor/outdoor FTTH drop cable, flat, steel wire, LSZH, 4 fibers, OS2 Ultra, white
