Universal folding workbench table for cabling system installers, data network engineers, Data Center support specialists.

Product Code: TIA-TT-xx

Universal folding workbench table for cabling system installers, data network engineers, Data Center support specialists.

Description

Universal folding workbench table for cabling system installers, data network engineers, Data Center support specialists specifically designed to increase productivity and create comfortable working conditions for specialists involved in installation of 19" equipment and splicing optical fibers.

The TechTable workbench table consists of a sturdy aluminum frame with clamps for Velcro fasteners. The table can be easily adjusted in height, depending on your height, ensuring correct body positioning. TechTable's legs are padded to prevent slipping on the floor. The working part of the removable tray has a rubberized bottom for tools. Also, a removable mount for optical fiber frames is included.

The foldable design makes it easy to transport. Using the TechTable increases efficiency, productivity, and workflow comfort.

Efficiency: Workplace where you need it - saving you up to 24% of working time!

Performance: consistent quality of installation - less fatigue, higher performance!

Comfort: ergonomic design - reduced risk of occupational diseases!

As an additional accessory, for easy carrying, there is a special bag that has a comfortable shoulder strap and additional pockets for storing tools.
