Product Data Sheet

TWT, coupler, shielded, unshielded

Part Number: TWT-CN110UTP5E

TWT, coupler for copper structured cabling systems. LANMASTER product information, specifications and part number details.

Description

The connection box is designed to connect two lines of unshielded 4-pair cable by termination on IDC wiring blocks.

It is used during repair work to quickly restore the connection of a damaged cable, as well as to organize a transition point.

Dimensions (DxWxH) - 34x61,5x23,5 mm.

Part Numbers

TWT-CN110UTP5E	TWT, coupler, shielded, unshielded
TWT-CN110STP5E	TWT, coupler, shielded
TWT-CN110UTP6	TWT, coupler, shielded, unshielded
TWT-CN110STP6	TWT, coupler, shielded
