Product Data Sheet

Smoke sensor for metered PDUs

Part Number: TWT-PDVMT-SNS-SMOKE

Smoke sensor for metered PDUs. Technical characteristics and inquiry information for the LANMASTER catalog.

Description

The sensor is designed to detect smoke-related fires in enclosed spaces. If the room has a high concentration of smoke, the sensor will trigger and send a notification to the monitoring device by changing its internal resistance.

For use with TWT-PDVMT1/TWT-PDVMT3 power distribution units.

Cord length: 2700 mm

Interface connector: RJ11

Part Numbers

TWT-PDVMT-SNS-SMOKE	Smoke sensor for metered PDUs
