Product Data Sheet

Tool case

Part Number: TWT-CASE

Tool case TWT-CASE: specifications, description, purpose and use in structured cabling, data center and LANMASTER infrastructure projects.

Description

The case is designed to carry and store tools and consumables used for installation.

The case is made of duralumin profile with riveted corners. The sides are made of "sandwich panels" (outer layer - corrugated aluminum, inner layer - dense foam, middle layer - foam material for protection against external shocks).

The interior has removable dividers to organize storage compartments. Inside the top lid is a hinged panel with pockets for basic tools.

The lid is secured with two key locks.

Includes shoulder strap and two keys.

Frame material is duralumin profile.

The sides material is corrugated aluminum.

Color is black.
