Product Data Sheet

19" cable manager with cover for 24 port patch panels, 2U

Part Number: TWT-ORG/CV24-2U

19" cable manager with cover for 24 port patch panels

Description

High-capacity metal cable manager available in 1U or 2U heights. It is designed for storing excess length of patch cords, which allows you to organize the placement of cords, avoid the creation of loops, and provide good visibility of the component.

Has 24 cutouts on each side for inserting patch cords.

Positions of the cutouts are specially designed to match the ports of the patch panels and route patch cords straight from jacks to inside of the cable manager.

There are three holes for bringing the patch cords from the back in the base of the cable manager.

The cable manager's cover allows you to hide the patch cords and preserve the aesthetic appearance of the patching field.

Made of cold rolled steel.

Polymer powder coating.

Color is black (RAL9004)
