LANMASTER F/UTP cable, 4 pairs, cat. 6A, with separator, LSZH, нг(A)-HF, 305 м

Product Code: LAN-6AFTP-HFLT-xx

LANMASTER F/UTP cable, 4 pairs, cat. 6A, with separator, LSZH, нг(A)-HF, 305 м

Description

The cable consists of 4 pairs of single copper conductors.
The diameter of the conductor is 23AWG. Each conductor is protected with HDPE (high density polyethylene) insulation.

Two conductors stranded with a specially selected step make up one twisted pair.

The pairs are separated from each other by a cross-shaped partition increasing the transient attenuation between the pairs.

4 twisted pairs and partition are wrapped in polyethylene film and together with a solid copper grounding conductor are enclosed in a common laminated foil screen and HFLT jacket.
Sequential meter length marks are printed on the cable jacket.
