120x50 mm trunking with optional separator, 2 meters, white

Product Code: LAN-CT120x50-WH

120x50 mm trunking with optional separator, 2 meters, white

Description

LANMASTER cable trunking is used laying data, voice, security and power wires and cables on walls. They provide mechanical, environmental impact protection of cables, and allow you to maintain the aesthetic appearance of the room in case of impossibility or inexpediency of hidden cable laying.

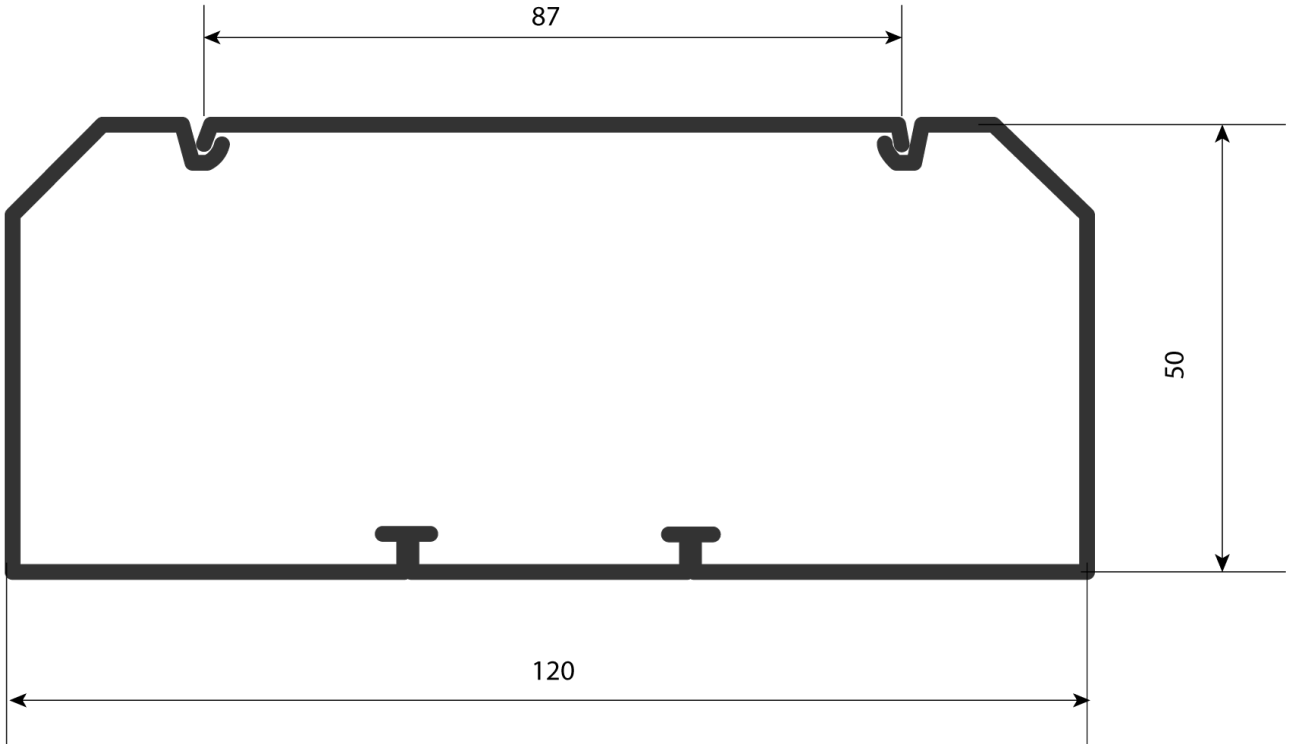

LANMASTER trunking can be used for distributing cable bundles through rooms to workplaces and can also be used as cable trunk ducts.

Features:

- Two separators can be installed.
- Made of high-quality plastic which creates a pleasant appearance.
- Impact resistant and flexible.
- 50 mm deep - any modules can be conveniently placed.
- Trunking fittings that allow you to implement a variety of configurations.

Fastening of the trunking lid eliminates spontaneous opening and prevents the penetration of dust and water splashes inside the trunking.

It is possible to install two separators. That is, you can divide the interior space into 3 compartments. The presence of a separator allows you to use this trunking for the simultaneous laying of cables and wires for various purposes.

Made of Polyvinylchloride (PVC)

Color is glossy white.

Section length is 2 meters.

Package includes:

- 120x50 mm straight trunking section, 2 meters, white, 1 pc.
- Straight section lid for 120x50 mm trunking, 1 pc.

Model range
