Containment system double sliding door for DC series cabinets

Product Code: LAN-DC-SDRxx-xxUx12

Containment system double sliding door for DC series cabinets

Description

A doors kit is installed between the end cabinets in rows to form an isolated aisle. Basic doors are used for a 1200 mm wide aisle, on request it is possible to manufacture doors of other widths. Doors are made of tempered 4 mm glass in aluminum frame.

Sliding doors with a mechanical opening system open manually and have a closer for smooth closing.

Automatic doors are equipped with an electric motor to open the door and are also have an access control system to the interior of the aisle, which greatly increases the level of security of the aisle containment system.

Made of tempered glass and aluminum.

Kit includes: two sliding doors, upper and lower guides, seals, and fasteners. Automatic doors are supplied with wires, start buttons, necessary accessories.
