DIN-rail outlet box for installing Keystone module, gray

Product Code: LAN-DRF-10K/BX-GY

DIN-rail outlet box for installing Keystone module, gray

Description

The outlet box is designed for installation on a DIN rail of industrial electrical cabinets to organize sockets for data communication lines.

Mounts to standard 35mm DIN rails with a simple snap. Allows you to install a data socket Keystone module. There is a spring-loaded grounding contact inside the housing for potential equalization when installing shielded Keystone modules.

There is also a field for labeling with a paper insert and a transparent protective film.

Made of ABS.

Color is gray.
