MPO optical connector cleaning tool

Product Code: LAN-FT-CL/MPO

MPO optical connector cleaning tool

Description

The device is designed for cleaning MPO connector end faces. The lint-free cleaning tape can quickly and effectively remove dust, oil, and other contaminants from the connector end face. The tool can be used to clean both unmated connectors and connectors in adapters. Suitable for cable connectors with or without guide pins.

No additional fluids or wipes are required for cleaning, the process takes literally seconds. The plastic protective cover prevents contaminants from getting onto the cleaning tape that is very important for everyday use in the field (maintenance floors, attics, etc.).

One tape has a life of over 500 cleaning cycles.

Types of optical connectors to clean: MPO.

Key features:

- Ease of use.
- Small dimensions.
- Spring mechanism provides deep cleaning.
- Transparent housing allows you to check the condition of the cleaning tape.
