### LANMASTER LSZH UTP cat. 6 patch-cord

**Product Code:** [LAN-PC45/U6-XX-XX](#)

LANMASTER LSZH UTP cat. 6 patch-cord

### Description

Patch cords is category 6 and fully comply with ISO/IEC 11801 standards.

The material of the jacket and the molded boot of the patch cord is low-smoke halogen-free PVC – LSZH (Low Smoke Zero Halogen).

The junction between the RJ-45 plug and the cable is filled with a plastic to ensure a strong connection between them, such a connection is called molded.

Special side ribs are provided at the molded part of the plug to protect the locking latch of the RJ-45 connector from damage and breakage. This solution does not interfere with pressing the latch.

The plug has flexible strain relief boot, which provides a given cable bending radius during operation.

### Patch cords are available in various lengths:

- 0.5 m
- 1.0 m
- 1.5 m

- 2.0 m
- 3.0 m
- 5.0 m
- 7.0 m
- 10.0 m
- 15.0 m

|                                        |                               |
|----------------------------------------|-------------------------------|
| <b>Jacket material</b>                 | LSZH (low smoke zero halogen) |
| <b>Conductor diameter</b>              | 24 AWG                        |
| <b>Conductor type</b>                  | Stranded                      |
| <b>Nominal velocity of propagation</b> | 69%                           |
| <b>Compliant with</b>                  | TIA/EIA 568-C.2 cat. 6        |

#### **Specifications:**

Tested in accordance with IEC 61935-2.

#### *Mechanical parameters*

The cord withstands a longitudinal load of 50N without separating the plug from the cable or breaking the wires. Protective boot withstands stress without breaking or peeling.

#### *Electrical parameters*

One hundred percent of the manufactured cords are tested for the integrity of electrical circuits, the absence of short circuits and the correct wiring.

#### *Performance parameters*

RL and NEXT parameters are tested.
