LANMASTER optical patch cord, LSZH, SC/UPC-FC/UPC, SM

Product Code: LAN-SC-FC-SM

LANMASTER optical patch cord, LSZH, SC/UPC-FC/UPC, SM

Description

FC-SC 9/125 patch cord - a piece of optical cable with one or two fibers (with a 3 mm buffer coating), each of which is terminated on one side with an FC optical connector and on the other side with an SC connector.

The patch cord is used for connection between various network devices or between a network device and a fiber optic cross or inside a fiber optic cross.

LANMASTER optical patch cords are manufactured from quality components in accordance with international standards. All products are factory tested. Test results included.

Installed connectors are numbered.

Each patch cord comes individually packaged.
