RJ-45 Plug Lock Kit (6 pieces) with a key, orange

Product Code: LAN-SEC45-CL-SET-OR

RJ-45 Plug Lock Kit (6 pieces) with a key, orange

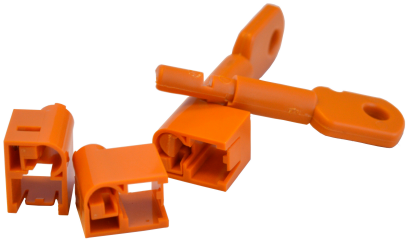

Description

The plug lock is designed to lock the RJ45 plugs into the sockets of the patch panels by locking the plug latch. This eliminates the possibility of intentional or accidental removal of the patch cord from the patch panel port. Installation and removal of locks with RJ45 plugs is made using a special key which is included in the delivery.

Locks are only compatible with patch cords without special RJ-45 plug latch protection designs in the form of side ribs.

Kit includes a key and 6 locks.
