22.5x45 Mosaic insert, RJ-11, with shutter and enlarged label field, white

Product Code: LAN-SIP-22TEL-WH

22.5x45 Mosaic insert, RJ-11, with shutter and enlarged label field, white

Description

Single-port telecommunication Mosaic inserts are designed for terminating data and voice cables on them. There are contacts for connecting cable conductors on the back side of the module. The contacts of the data socket are covered with a sliding shutter on the front side of the insert. The insert has an enlarged label field protected with a transparent cover.
