Product Data Sheet

19" cable manager with 5 vertical rings and 2 side rings, 1U

Part Number: TWT-ORG1U-5V2H

19" cable manager with 5 vertical rings and 2 side rings, 1U

Description

The cable manager is designed for storing excess length of patch cords, which allows you to organize the placement of cords, avoid the creation of loops, and provide good visibility of the component labels.

Two side horizontal rings are provided for the organization of vertical cable streams. The horizontal rings are placed at a certain distance so that the vertical cable

flows do not overlap the patching field. Cable manager rings are securely fixed by welding, powder coating is applied.
