Product Data Sheet

LC-LC duplex optical patch cord for high density panels, OS2, LSZH, 5.0 m, yellow

Part Number: LAN-2LC-2LC/OS2H-5.0

Duplex optical patch cord for high density panels, LC-LC, Uniboot Pull-tab, LSZH

Description

The optical patch cord is designed for connection between high-density fiber optical panels. The patch cord has an easy grip for removing and inserting into high-density panels. This design allows you to re-connect without the use of additional tools, quickly and efficiently.

The high-quality production provides a low insertion loss. The length of the patch cord can be arbitrary.

Insertion loss in LC connectors: ≤ 0,3dB

Part Numbers

LAN-2LC-2LC/OS2H-1.0	LC-LC duplex optical patch cord for high density panels, OS2, LSZH, 1.0 m, yellow
LAN-2LC-2LC/OS2H-5.0	LC-LC duplex optical patch cord for high density panels, OS2, LSZH, 5.0 m, yellow
LAN-2LC-2LC/OM3H-1.0	LC-LC duplex optical patch cord for high density panels, OM3, LSZH, 1.0 m, aqua
LAN-2LC-2LC/OM3H-2.0	LC-LC duplex optical patch cord for high density panels, OM3, LSZH, 2.0 m, aqua
LAN-2LC-2LC/OM3H-3.0	LC-LC duplex optical patch cord for high density panels, OM3, LSZH, 3.0 m, aqua
LAN-2LC-2LC/OM3H-5.0	LC-LC duplex optical patch cord for high density panels, OM3, LSZH, 5.0 m, aqua
