Product Data Sheet

TWT, coupler, 25-pair

Part Number: TWT-CNS-25P/B

TWT, coupler, 25-pair for copper structured cabling systems. LANMASTER product information, specifications and part number details.

Description

The cable coupler is designed to connect 25 pairs of copper conductors with a wire gauge from 23 AWG to 26 AWG. It can be used both for splicing multi-pair cables and for their branching.

Ideally suited for use with serviceable or maintenance-free couplings, including outdoor sealed couplings.
