LSA PROFIL disconnection module, Eco, 10 pairs, for back mount frame and profile rods

Product Code: TWT-LSA10P-DIS-xx

LSA PROFIL disconnection module, Eco, 10 pairs, for back mount frame and profile rods

Description

Connection modules are the basic element of the distribution point and are used to connect cables and jumper wires.

Modules are available in two types: disconnection and connection. The connection of any pair of pins of the disconnection module can be temporarily interrupted with the disconnection plug. Opposite contacts of the connection modules are permanently closed.

The modules are intended for installation both on back mount frames and on profile rods. Fastener type is LSA PROFIL.

The modules made of high-quality, non-flammable, non-smoky ABS plastic.
