19" cable manager with cover

Product Code: TWT-ORG/CV-xU

19" cable manager with cover

Description

The metal cable manager with a cover is designed for storing excess length of patch cords, which allows you to organize the placement of cords, avoid the creation of loops, and provide good visibility of the component labels.

There are five holes for bringing the patch cords from the back in the base of the cable manager.

The cable manager's metal cover allows you to hide the patch cords and preserve the aesthetic appearance of the patching field.

Model range

TWT-ORG/CV-1U	19" cable manager with cover, 1U
TWT-ORG/CV-2U	19" cable manager with cover, 2U
