TWT Patch panel, 48 port, UTP, cat. 5E, 2U

Product Code: TWT-PP48UTP

TWT Patch panel, 48 port, UTP, cat. 5E, 2U

Description

Patch panels are the point of consolidation of telecommunication cable lines. Cables are terminated into RJ45 modules (ports) from the back side of the panel and this cable lines are connected to active equipment with patch cords from the front side. Patch panels are a convenient way for providing users with various services from active equipment.

Panels can be installed in 19" telecommunication cabinets, racks, and on the wall using wall frames. In addition, the panels are equipped with holders for paper label, which allows you to change the labels if necessary. Uniform label size allows printing new tags on any type of printer.

Features:

- Modern design and easy installation
- Category 5E compliant
- Color coding of termination blocks according to T568B and T568A
- Paper label holders for additional marking
- Port grouping by 6 ones
- Manufactured in 2U height
- Digital labeling of ports on the front side
- Color and digital marking of contacts from the back side
- IDC blocks with color wiring coding

Package included:

- Patch panel
- Mounting screws
- Cable ties

- Paper labels
- Punchdown tool
